### Technical Data Sheet

ASTROLUX

Non-leafing Aluminium Paste

PRODUCT: A5405

SOLIDS : 70%min

Fineness :

-45mic : 97.00%min

Average Particle Size\*:

D50 Value: 36±2 µm

\*Malvern Mastersizer 2000, Typical

A5405 is a **coinlet type** of medium range particle size non leafing aluminum pigment product based on formulated high aromatic mineral spirit solvent of balanced polarity to make it versatile to use in various solvent based paint formulations. This product is of controlled particle size distribution to provide excellent color stability.

It is recommended to keep the container closed as well as away from any flame, spark or heat. Store it in a cool and dry place with adequate ventilation. Do not keep an opened drum in storage. For best results it is recommended to consume the product as quickly as possible. The Manufacturer is not liable and shall not be held responsible for any issues on the product damage if the drums are opened.
